

# Resources compilation

## Mobile device apps

This page updated 5 April 2019

*This resources compilation consists of separate pages for*

- ◆ *Observing*
- ◆ *Mobile device apps*
- ◆ *Websites*
- ◆ *Blogs*
- ◆ *Documentaries*
- ◆ *Videos*
- ◆ *Podcasts*

*We hope you find it useful, and we welcome comments to [info@corkastronomyclub.com](mailto:info@corkastronomyclub.com)*

Sky Safari. Best app by far for showing night sky on either Android, iPhone, iPad. Find sky objects by pointing camera in a given direction in sky (but note this feature not part of the free version). Or navigate the sky yourself using direction of either Sun, Moon, bright star or North.  
<https://skysafariastromy.com/>

Stellarium : AR Guide to the Galaxy - Perfect guide to stars. Free on PC or laptop but for mobile devices about €3. <https://stellarium.org/>

Pocket universe : John Kennedy. Very helpful guide to while observing the stars at night. Not available on Android. Free on iPhone. <https://appadvice.com/app/pocket-universe-express/417491567>

NASA Apps for smartphones, tablets and digital media players. Keep updated on latest news from NASA. Available on both Android and Apple and free.  
<https://www.nasa.gov/connect/apps.html>

Night Sky: A helpful guide to the stars and simple to use. Only Available only on Apple. <https://www.icandiapps.com/icandiapps/night-sky-4/>

ISS Detector Tracks the ISS from your location and gives updates. Available free for both Android and Apple. <https://www.issdetector.com/>

Planets : Dana Peters. A Guide to our solar system covering all the 8 planets. Available on both Android and Apple and it's free.  
<https://play.google.com/store/apps/details?id=org.qcontinuum.planets&hl=en>

5 Solar walk. Vito technology. Not really for observing. More of educational tool for the solar system and few other stars. Available on both Android and Apple but it is not free . This is really for beginners only. <http://www.vitotechnology.com/solar-walk.html>

**Next page : weather apps**

## **Weather apps**

Met Éireann, good to combine this with at least one of the others on the list

<https://www.met.ie/weather-forecast/cork-city>

Clear Outside by First Light Optics - shows degree of cloud cover, available on both Android and Apple and it's free.

sat24.com - used regularly by some Club observers, <https://en.sat24.com/en/forecast/h/2551268/cork>

AccWeather - fairly good <https://www.accuweather.com/en/ie/cork/207697/weather-forecast/207697>

For Facebook users, if you follow Sailcork.com, your newsfeed will get a daily weather video for Cobh from Eddie English.
