We hope you find it useful, and we welcome comments to info@corkastronomyclub.com

Scishow space Two high quality videos released a week, typically no longer than 7 minutes long. A useful source for space information. <https://www.youtube.com/user/scishowspace/videos>

V101 Science — examples, Journey through the universe at the speed of light, what it would be like to fall into or stand on every planet in the solar system, as well as some of the moons, and much more. <https://www.youtube.com/user/TheVendor101/videos>

Drexler Astral — examples, if Earth had two suns, living on Mercury, if Earth became a moon of Neptune <https://www.youtube.com/channel/UCHODoGwFyKqsG8d5Yu0bToQ/videos>

Astrum — examples, Uranus's unusual orbit, and are nebulae actually as colourful as the Hubble images suggest? <https://www.youtube.com/user/astrumspace/videos>

Sixty Symbols covers scientific topics including astronomy—eg Lagrange points, orbits and gravity— by experts from the University of Nottingham, <https://www.youtube.com/user/sixtysymbols/videos>

Science & Futurism with Isaac Arthur. Goes into space topics in some depth. New episodes weekly. https://www.youtube.com/channel/UCZFipeZtQM5CKUjx6grh54g/videos?disable_polymer=1

Kurzgesagt - In a Nutshell. Informative animated videos on every topic imaginable, with care taken over accuracy. <https://www.youtube.com/user/Kurzgesagt/videos>

Joe Scott answers questions on a wide variety of topics, many but not all to do with space. <https://www.youtube.com/user/nightandday>

Second Thought. Covers a wide variety of topics including the history, science and politics of space. https://www.youtube.com/channel/UCJm2TgUqtK1_NLBrjNQ1P-w/videos

The Seeker channel offers some good space videos, a couple of examples are “SpaceX’s plans for universal internet could ruin astronomy” and “Is there space for 12,000 more satellites up there?” <https://www.seeker.com/videos>
